The common expression now is that the "bottom has fallen out of wheat." Never was this truer than now. Wheat has been in a terribly fluctuating state. What a terrible havoc there has been in pork prices. People stand aghast at the showing of the market. Prices are as low as \$2.80 per hundred. A fellow contemplates his porky poker with dismay, thinking many a cuss words over the fact of his having spent so much money in expanding the sides of the animal. Corn dirt cheap, and yet no money in hogs. Terrible is the situation.

Minneapolis people are beginning to wonder whether that K. P. branch will be built. The news with reference thereto has not been very pleasing of late.—Journal.

You are quite off the track, brother Sampson, everything is being pushed forward with all possible speed, and we have every prospect that the road will be here on time, according to contract.—Minneapolis Independent.

Some of our Salina county politicians who think there must be a change, and who now set themselves up as the rulers of Salina county, with the intention of reforming everything, are about as pure and virtuous as was the courtesan who played the part of Goddess of Reason in that "eminently pure" Parison procession of the Revolution. The political guillotine may "play hob" with their intentions, too—for it is "a very, very long" lane that has no turn—these politicians are.

Mr. S. W. Pierce, of the firm of S. W. Pierce & Co., of Junction City, called yesterday. This firm are agents for J. Estey & Co's. celebrated organs for Western Kansas. They have appointed Messrs. Libbey & Eastman their agents at this place. It is the intention of all concerned in the agency that this organ shall be placed in nearly every home in Central and Western Kansas before another fall. Mr. Pierce is a very pleasant gentleman, whose acquaintance we were glad to make.

The Salina delegates to the German convention which convened in Topeka, last week Tuesday, viz: Seitz, Dible, and Bondi, were all prominent in the proceedings thereof, and "got their work in" pretty well. Oscar Seitz was elected Treasurer of the association. The association will meet in Salina on the second Wednesday in April, 1879. The strife for the location of the next meeting was between Lawrence and Salina. The Salina boys put in their "best ticks" and Salina finally won, as she always does.

Under the head of "Personal" in the Topeka Commonwealth of January 10, we find the following:  
E. Eisenhaur, manufacturer of the celebrated Salina white brick, is a delegate to the convention of Germans.—Oscar Seitz, a druggist of Salina, who has one of the handsomest stores in the state, is in the city, a delegate to the German Emigrant Aid Society.—Robert Dible, of Salina, dealer in harness, etc., is also a delegate to the convention.—August Bondi, Probate Judge of Salina county, is a delegate to the German convention now in session.

The Herald seems to put up its opinion against that of Dr. Jenny, Frank Davis' physician, relating to the latter's condition when he was put in the county jail. The Herald says Davis was in the last stages of consumption when he was first placed in jail, while Dr. Jenny says he was a healthy man, of strong constitution. People generally consider Dr. Jenny a better physician than the Herald, and better prepared to testify as to the condition of Davis. Davis was brought into the last stages of consumption by being confined in that villainous jail, and Sam Long and the Herald cannot cover up this fact.

Last Monday the county officers elect walked up to the Captain's office and took the oath according to law. Sloan, county clerk; Criss, register; Long, sheriff; Hamilton, treasurer; Groger, coroner; Wright, surveyor; Denton, Clerk; and Buell, commissioners, are the servants of the people for a period of two years. Messrs. Anderson and Champlin, we believe, are the only ones of the old set of officers who step down and take seats among the sovereigns. Anderson was a good officer and is succeeded by a person fully competent for the place. Champlin, retiring from the position of county commissioner in the Second District, leaves an unblemished official record, and one and all can truthfully greet him with "Well done good and faithful servant."

There seems to be some misunderstanding about the sale of seats to Gen. Kilpatrick's lecture, Saturday evening next. The whole church has been laid off and it is found that 413 persons can be seated. It is proposed, therefore, to sell just that number of tickets, and no more, and not allow any standing about in aisles. Consequently all are given an opportunity to select their seat before going to the church, and that without extra charge. There is not a seat in the whole number but what is good—both for seeing and hearing the speaker. The church was rearranged, lately, with the especial object of making every seat in it desirable, and this was done most successfully. There have already been 239 seats sold and there remain 174 unsold. Tickets will be sold until the entire number are taken, and then the sale closed. It is the purpose of the management of the course not to block up the aisles with standing people and thereby obstruct the view of those who have seats. Secure your seats before going to the church.

Good Results  
Are always pleasant to contemplate, as every dyspeptic sufferer who uses Parker's Ginger Tonic will attest. To obtain from this remedy the gratifying relief when distressed with headache, low spirits, nervousness, wakefulness, pain in stomach, palpitation of the heart, liver disorders, constiveness, heartburn, cramps, etc., is a pleasant experience that surpasses no less than a comfort. Another remarkable feature of this remedy is its powerful specific action on the skin and mucous surfaces of the throat and lungs, by which it unfailingly cures the worst cases of cough, cold and sore throat. It cures in a wonderfully short time, removes all soreness from lungs and protects the feeble from consumption. Buy a \$1 bottle from your druggist, O. Seitz, or a sample bottle for 15 cts and test its merits.

Notice to Stockholders.  
The Annual Meeting of the Stockholders of the Farmers' Elevator Association will be held at the Court House in Salina, on Saturday, the 2nd day of February, at 10 o'clock a. m.

Uncle Sam's condition powders, they say, cures and prevents disease. But they are not a circumstance compared to Ben. Litwisch's vast stock of dress and fancy goods which creates peace and health in the family quicker than all the condition powders which were ever created.

V. B. MARTIN, Secretary.  
JAN. 2, 1878.

We have had our first, real bona fide snow storm. It happened last Saturday and the snow is still partially with us. Sunday morning a whitened landscape, with frosted twigs and boughs above, and fences and posts clad in white garments met the sight, and told us that we were really viewing a wintry scene. The snow may have been three inches deep. All day Sunday and the evening following, cutters and sleds, improvised in many different styles of architecture, and loaded with eager young people, were drawn about town with considerable shouting and no great amount of rapidly. But the pleasures of sleigh-riding in Kansas are fleeting and terribly unsatisfactory.

Brookville Column.  
Considerable snow fell this week, the first good snow of the season. The roads were blocked entirely in places, literally snowing in some of the trains.

Brookville was the scene of a good deal of confusion on Monday morning. It seemed for a time that all of the K. P. Railway stock was ordered here. We had at one time ten or fifteen engines, which kept the R. R. employees going night and day, for two or three days. The road is all right again.

The dance came off on Friday eve last, to the satisfaction of every one concerned, and was financially a success.

We are to have a hardware store in Brookville, also a new restaurant, in a few days—a sure sign that our town is improving; if our folks would only pull together, we could very soon have a town.

Dr. Stearns had his "blooded stock" on exhibition to-day: his sorrel mare V. C. Woodhull. She is a beauty with some chance for improvement. He is changing pasture, evidently thinking of the saying, "Change of pasture makes" etc.

Hon. J. G. Mohler, and Mr. Van Light came to town to-night, having driven all the way from Salina through the snow.

A grey eagle, measuring six feet nine inches, from tip to tip, was captured last Thursday, near the "Hole in the Wall," in a wolf trap.

George P. Heaton, the genial clerk of Ober, Wilson & Co's, having gone east to visit friends, Geo. White of Salina is filling his place, making fun for the boys and selling lots of goods.

The week of prayer was observed by the church going people of this place.

The grand ball of the season was held last Friday evening at the school house. A much larger number was present, than even the committee expected. The room was beautifully draped with flags and shields. There were many handsome dresses displayed, among which were those worn by the Misses Impson, Brownson, Palmer (of Salina), Mrs. Marlin and Mrs. Pearson. Among the gentlemen from other places, were Messrs. Ras Wilson, J. W. Crowley, R. K. Jeffries, and Martin of Salina; Conductor Jenkins of Wyandotte. The music was very fine. Many partook of the supper served at the Bogus House, and all pronounced it elegant. Everything passed off pleasantly, for which great credit is due the committee.

Saturday morning, about six o'clock, a disgraceful fight occurred in front of the Livery stable. One of the parties flourished a hatchet the other a knife; fortunately no one was seriously hurt, only badly scared.

Monday our little "burgh" had quite a city appearance. 11 engines and 3 passenger trains came in from the west, having been "snow-bound" between here and Ellsworth and Jeannette McCafferty's team ran away, the grey horse evidently "felt his oats" from the quick time he was making. No stop watches being at hand it was estimated at the rate of four miles an hour. Box.

Brookville is becoming the main trading point for many farmers who never traded here until within the last few months. They think Salina is a flourishing little town, but it is too near Brookville to amount to much hereafter.

The energetic mechanic who started a cooper shop here a few months ago has quit the business. He thinks the enterprise will not pay at present, and not until a mill is in running order with at least two run of stone.

Our city marshal is on his taps from early morn till late at night, and has all he can attend to, to hold the city level. Tim came up a few days ago and gave him a little trouble, and only saved his Bacon by that Bear bag he gave him.
